Are We Wasting What We Can't Afford?

A Data-Driven Analysis of Household Food Spending & Waste in Malaysia

Key Insight

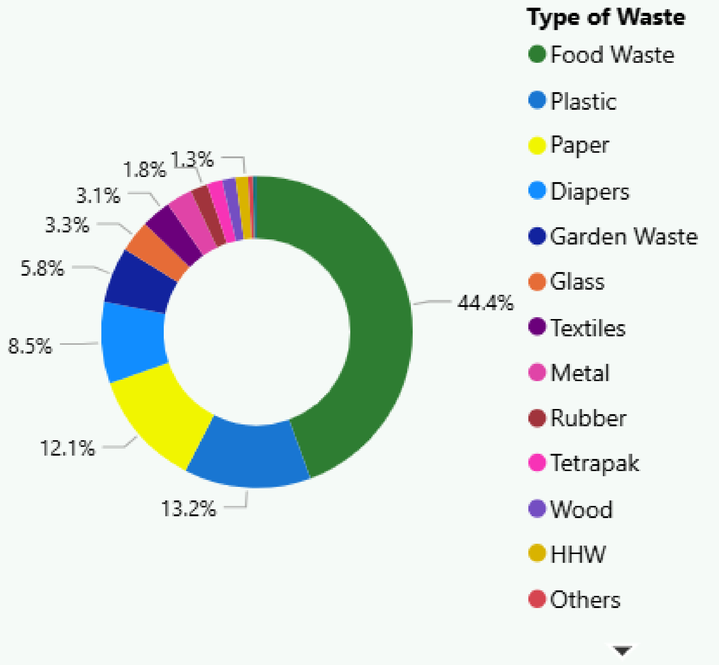

We spend more on food than ever, yet we continue to waste it at alarming levels.

98.7bn
Total Waste Generated (kg)

43.9bn
Food Waste Generated (kg)

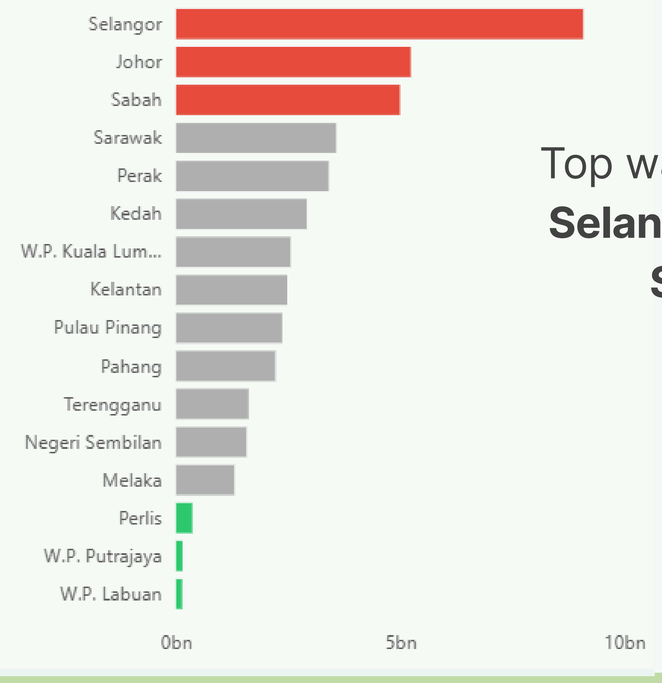

44.4%
Food Waste from Households

What Makes Up Malaysian Household Waste?

Food is the **largest waste contributor (44.4%)**

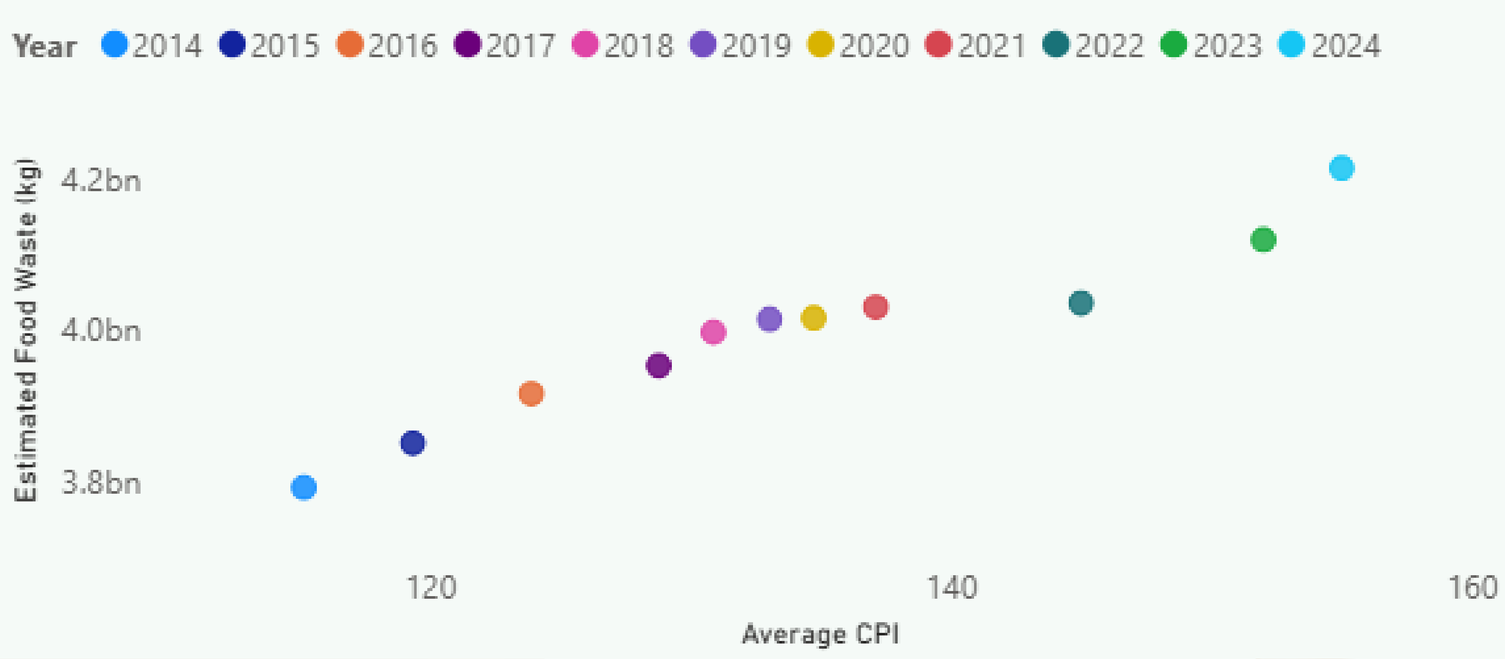

Total Food Waste Generated by State

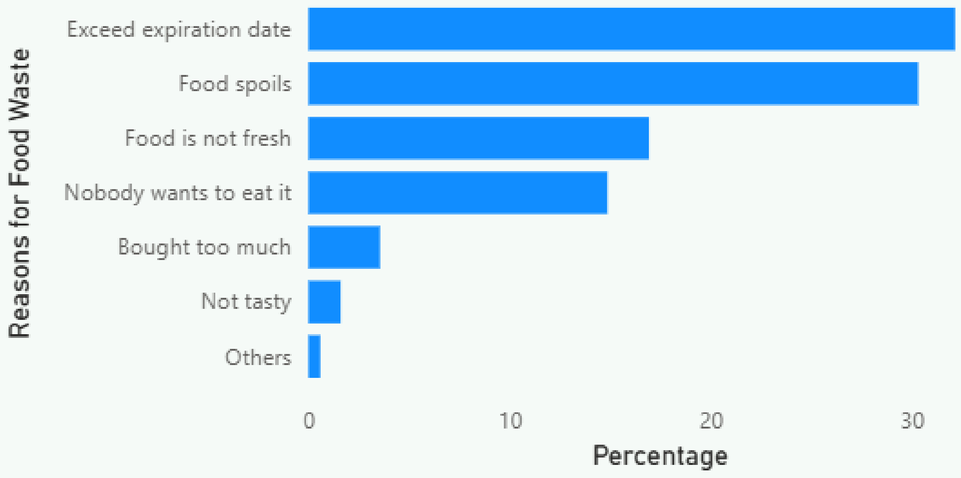

Top waste states: **Selangor, Johor, Sabah**

RISING FOOD PRICES DO NOT REDUCE FOOD WASTE

Relationship between Food prices and Food Waste

THE REAL REASON WHY THIS IS HAPPENING? HUMAN BEHAVIOURS!

WHY THIS HAPPENS: HUMAN BEHAVIOUR

Food waste is driven by behaviour, not income

- **Expired food is the leading cause**
- **Poor storage and planning increase waste**
- **Over-puchasing contributes significantly**

WHY IT MATTERS

- **Financial losses**
- **Environmental impact**
- **Resource inefficiency**

✓ SOLUTIONS

- **Plan purchases.**
- **Avoid overbuying.**
- **Store food properly.**
- **Raise awareness.**

Reduce waste by 10%, save billions annually

8 DECENT WORK AND ECONOMIC GROWTH

12 RESPONSIBLE CONSUMPTION AND PRODUCTION
